- executing script program conveys the information to the individual using the user interface and receives input from the individual in response to the conveyed information through the user interface, said processor device being connected to said communication device[,] and to said user interface[, and to said memory device]; and
- d) at least one monitoring device in communication with said remotely programmable apparatus, said at least one monitoring device for providing at least one measurement of a physiological parameter of the individual.

Please add the following new claim:

The system of Claim 1, where the first and second communication networks are he same network.

REMARKS

Claims 1, 2 and 4-11 are pending. The Office Action mailed February 4, 2000 rejected Claims 1, 2 and 4-11 under 35 U.S.C. § 103. By way of this amendment, applicant has amended Claim 1 and added Claim 12. No new matter has been added. Pursuant to 37 C.F.R. 1.111, applicant hereby respectfully requests reconsideration of the application.

Rejection of Claims 1, 2 and 4-11 under 35 U.S.C. § 103

The Office Action rejected Claims 1, 2 and 4-11 as being unpatentable over DeVito. The Office Action states that DeVito discloses a system for communicating custom information to an individual. In accordance with amended Claim 1, applicant respectfully traverses this rejection.
